PROFILE

As a highly skilled freelance frontend developer, I specialize in creating visually appealing, responsive, and user-friendly web applications. With extensive experience in React JS, Next JS, and Tailwind CSS, I work closely with clients to turn their vision into functional, scalable, and efficient digital solutions. My focus is on delivering high-quality code that ensures optimal performance across all devices and browsers.

WORK EXPERIENCE

Freelance

2019 - PRESENT

Frontend developer (React)

- Developed responsive web applications using React JS, Tailwind CSS, HTML, CSS, and JavaScript.
- Collaborated with clients to deliver scalable and user-friendly solutions.
- Stayed current with industry trends to implement cutting-edge technologies.
- Successfully completed multiple projects, enhancing user engagement and overall performance.
